Kid Sport Fundraiser

Alpha Aviation was proud to support KidSport Delta's Hoedown Showdown fundraiser by donating the use of the iconic Heritage Hangar, helping create a unique and memorable event.

The Hoedown Showdown brought the community together to raise funds in support of KidSport Delta, an organization committed to ensuring that all kids have the opportunity to participate in sport. Through its grant program, KidSport Delta helps cover the cost of registration fees so that children can experience the physical, social, and developmental benefits of organized sport.

The event was made possible thanks to the dedicated volunteers and athletes who gave their time and energy to engage with attendees throughout the evening. Among them was CZBB's sponsored athlete Emeline Bennett, who played a key role in running games and activities, helping create a fun and interactive atmosphere for guests.

Thanks to the generosity of attendees and sponsors, KidSport Delta was able to raise over \$100,000 in support of local youth sport.

The evening was filled with energy, generosity, and a shared goal - getting more kids off the sidelines and into the game. Alpha Aviation was honoured to play a role in the event and remains committed to supporting community initiatives.

Emergency Response Exercise

A successful emergency exercise was recently carried out at Boundary Bay Airport, highlighting the importance of coordination and preparedness across multiple agencies.

The exercise brought together teams from Delta Fire & Emergency Services, Delta Police Department, and NAV Canada. Working alongside airport staff, each group played a critical role in simulating a coordinated emergency response scenario.

A special thank you to the BCIT students in the Aviation Management and Operations Program, whose participation added an important level of realism to the training. Their involvement helped responders practice real-time decision-making and patient care under more lifelike conditions.

CZBB remains committed to ongoing training and strong partnerships to ensure the continued safety of all airport users and the surrounding community.

CZBB Summer Hours

As the busy summer season approaches, Boundary Bay Airport will be extending operating hours to better serve our aviation partners.

Starting May 1st, operating hours will shift to 0700 to 2100, providing more flexibility for flight planning and increased accessibility during the longer daylight months.

These extended hours will support the increase in seasonal traffic and allow for smoother operations. CZBB looks forward to welcoming the aviation community for what promises to be a great summer of flying!

FIFA World Cup

With Vancouver set to host seven matches during FIFA, the Lower Mainland is expected to see a significant rise in private aviation travel. CZBB is proactively gearing up to support the potential increase in aircraft, crew, and visitors.

Planning efforts are underway, with a focus on optimizing ramp space and ensuring a seamless experience for all airport users.

Boundary Bay is ready to welcome domestic and international flights.
